Oleo Misr for Oleochemicals

Our Group of Companies

We are a group of companies working in edible oils, soap, plastics bottles, feed additives and oleochemicals since 1940.

Our first soap plant was built in 1940 under the name of Morgan Soap , Now the group is managed by board of directors has more than 40 years of experience in oils and soap industry, supports new generation of leaders which allow the companies to achieve continuous improvement in products, process, people and knowledge.

Our Vision

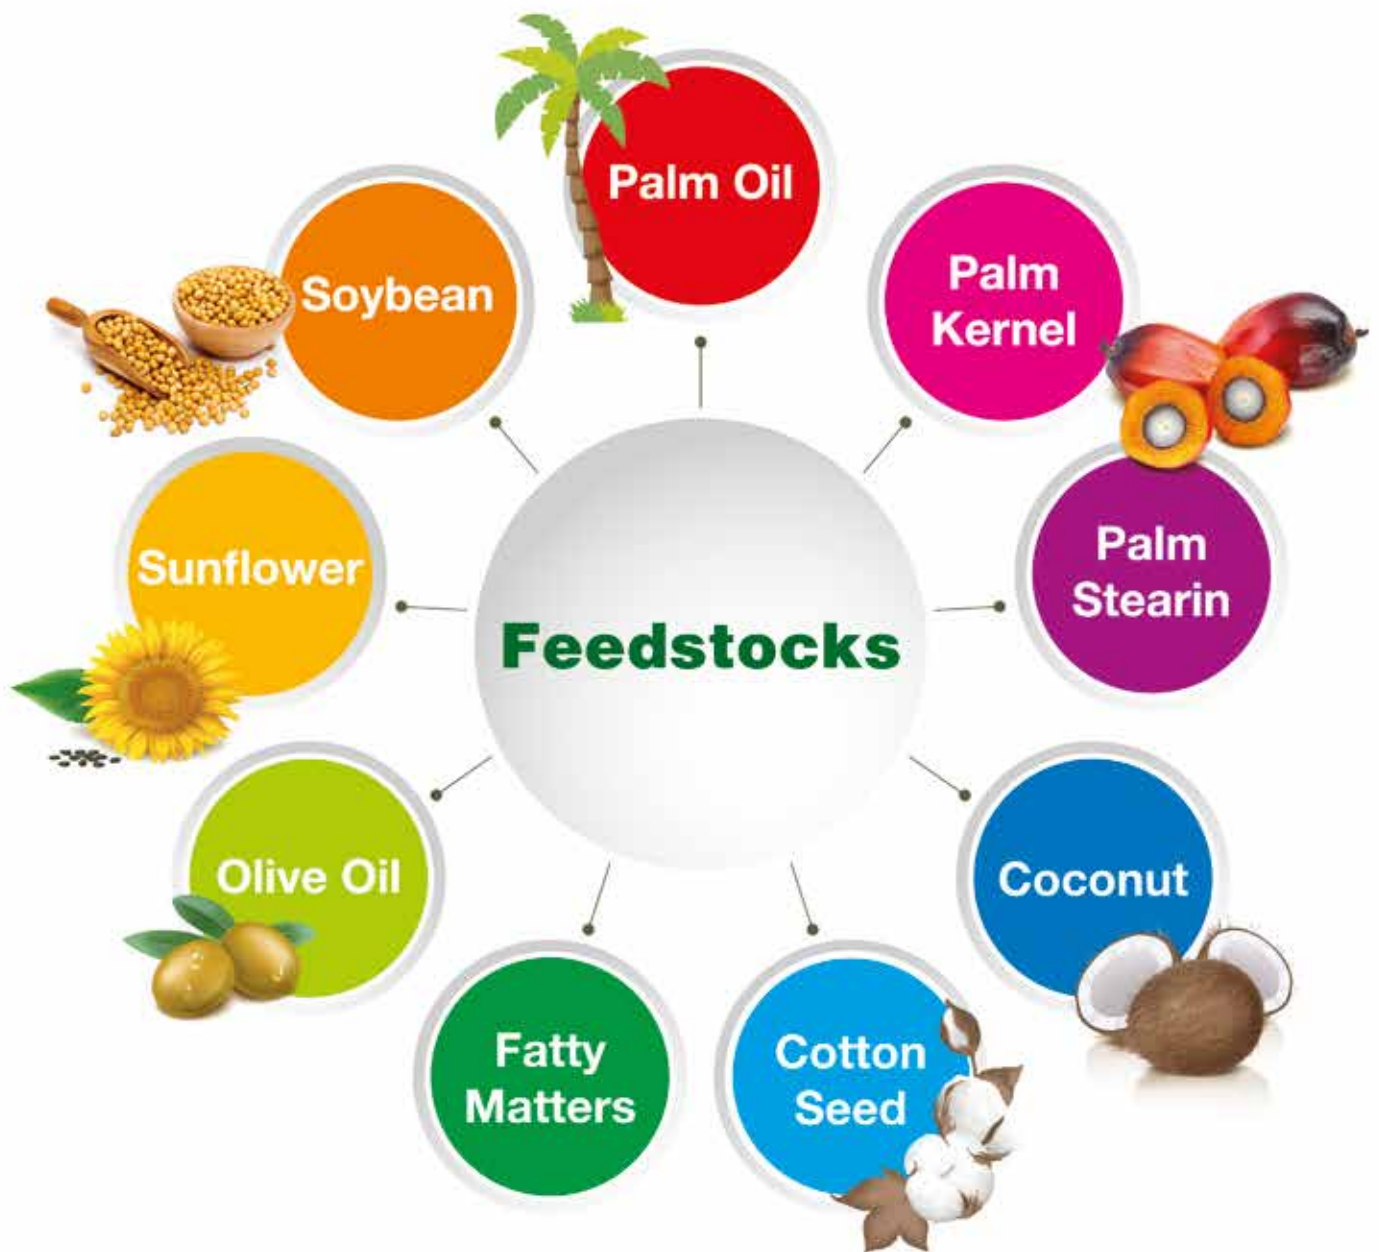

To Lead Oleochemical Industry in our Region

One of the leading oleochemical plant in Middle East and Africa. Complete oleochemical complex delivered by Gianazza Italy and automated by Endress + Hauser, operated in Quarter 2 - 2018 .

Our Mission is providing local and foreign markets with high quality and cost advantage oleochemicals' products; through our hi-tech flexible facilities, technical capabilities, and years of experience using wide range of renewable and natural feedstocks .

we consider ourselves as partner with our customers, suppliers, employees, community, and environment .

Our Products

Distilled FA

Palm FA

Palm Stearin FA

Palm Kernel FA

Soybean FA

Sunflower FA

Olive FA

Castor FA

Coconut FA

Fractionated FA

Caprylic / Capric

Lauric %99

Myristic %98

Palmitic %90, %95, %98

Oleic %60

Customized Blends

Glycerin

USP grade %99.7

Food grade

Hydrogenated Oils & Fats

Hydrogenated Palm Oil

Hydrogenated Palm Kernel Oil

Hydrogenated Palm Stearin

Hydrogenated Fats

Stearic Acid

Stearic 90%

Stearic 80%

Stearic 38 - 40%

Soap Noodles

SN 70-30

SN 80-20

SN 90-10

SN Customized

New Products in our R&D pipeline

Glycerin Esters

Isopropyl Esters

Sorbitan Esters

2-ethyl hexyl Esters

Plant Capacity

32,000 tons/year of fatty acids splitting capacity

30,000 tons of soap noodles

3,200 tons/year of glycerin

Packing & Drumming Plants for solid & liquid products

- Distilled fatty acids and glycerin are the major liquid products .
- Production of solid products in the form of flakes & powders carried out in high quality packing systems .
- Packing rooms prepared according to international standards and conditions.
- Various shapes and designs used in the packing process such as, jumbo 50kg , 25kg bags for solids . steel & HDPE drums, Intermediate Bulk Containers “IBC”,and bulk for liquids.

The logo for Oleo, featuring the word "Oleo" in a stylized, bold, sans-serif font. The letter "O" is a white circle with a green outline, and the letters "leo" are solid green. Below the logo is a small graphic of a green leaf and a white droplet.

Quality Assurance & Quality Control Inspection Strategy

*From Nature
to Chemistry*

- Follow ISO 22000 ,9001 ,45001 and 14001 standards.
- Incoming Raw Materials Inspection and Testing.
- In-Process Inspection and Testing.
- Finished Product Inspection and Testing.
- Packing Material Incoming Inspection and Testing.
